Data Dictionary: Summary of Variables

Note: Data structure was automatically generated from DataFrame analysis. Variable metadata may need review and updating for accuracy.

Variable Name	Data Type	Length	Categorical	Variable Label
person_id	Int			Variable Label Missing
name	String			Variable Label Missing
age	Int			Variable Label Missing
salary	Float			Variable Label Missing
department	String			Variable Label Missing
is_manager	String			Variable Label Missing
satisfaction	Int			Variable Label Missing

Variable Details and Notes

The following pages provide details on each variable. Where applicable, notes provide links to verify data. Categorical variables include details on category codes.

Auto-Generated Structure Test

person_id: Variable Label Missing

Variable characteristic	Variable details
variable type	numeric (Int)
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
range	minimum value: 1.00 to maximum value: 5.00
mean	3.00
median	3.00
standard deviation	1.58
10th percentile	1.40
25th percentile	2.00
50th percentile	3.00
75th percentile	4.00
90th percentile	4.60

Variable Notes: person_id

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

name: Variable Label Missing

Variable characteristic	Variable details
variable type	string
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
unique values	5
minimum length	5
maximum length	6
example 1	Diana
example 2	Bob
example 3	Charlie
example 4	Alice

Variable Notes: name

****WARNING****: Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

age: Variable Label Missing

Variable characteristic	Variable details
variable type	numeric (Int)
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
range	minimum value: 22.00 to maximum value: 40.00
mean	30.40
median	30.00
standard deviation	7.30
10th percentile	23.20
25th percentile	25.00
50th percentile	30.00
75th percentile	35.00
90th percentile	38.00

Variable Notes: age

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

salary: Variable Label Missing

Variable characteristic	Variable details
variable type	numeric (Float)
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
range	minimum value: 45,000.00 to maximum value: 80,000.25
mean	62,400.30
median	65,000.75
standard deviation	14,707.14
10th percentile	47,000.20
25th percentile	50,000.50
50th percentile	65,000.75
75th percentile	72,000.00
90th percentile	76,800.15

Variable Notes: salary

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

department: Variable Label Missing

Variable characteristic	Variable details
variable type	string
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
unique values	3
minimum length	7
maximum length	2
example 1	HR
example 2	IT
example 3	Finance
example 4	HR

Variable Notes: department

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

is_manager: Variable Label Missing

Variable characteristic	Variable details
variable type	string
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
unique values	2
minimum length	5
maximum length	4
example 1	False
example 2	True
example 3	False
example 4	True

Variable Notes: is_manager

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.

Auto-Generated Structure Test

satisfaction: Variable Label Missing

Variable characteristic	Variable details
variable type	numeric (Int)
total cases	5
valid cases	5
missing cases	0
unit of measure	Unknown
unit of analysis	Unknown
range	minimum value: 3.00 to maximum value: 5.00
mean	4.20
median	4.00
standard deviation	0.84
10th percentile	3.40
25th percentile	4.00
50th percentile	4.00
75th percentile	5.00
90th percentile	5.00

Variable Notes: satisfaction

****WARNING**:** Auto-generated data structure - please review and update metadata as needed.
